
Summary

Quota-carrying Solution Sales Engineer with 4+ years in enterprise data and AI sales at IBM, owning both pre-sales and post-sales. In 2026, achieved 533% of a \$3M SaaS quota (including a \$36.5M TCV deal with a Fortune 10 technology company), 244% of new software quota, and 223% of deployment quota. Technically fluent across data integration, data governance, and LLM, RAG, and agentic AI use cases, with a CS degree, hands-on watsonx experience, and internal sales tooling built and shipped. Equally credible with developers, technical buyers, and C-suite executives.

Projects

Interactive One Pagers – Built interactive seller enablement hubs covering 85 IBM products, with global search, pain-point-to-product lookup, live-call battlecards, competitive objection handling, and downloadable one-pagers, deployed on GitHub Pages for IBM sellers.

Sales Architecture Studio – Built a browser-based seller tool with 33 tools, 10 reference architecture templates, 27 competitive battlecards, and an automated test suite to speed opportunity scoping and solution design for IBM sellers.

Professional Experience**Senior Solution Sales Engineer — Data & AI***January 2025 – Present**IBM – New York City, NY*

- ❑ **Achieved 533% of a \$3M SaaS quota in 2026 YTD**, including \$16M in quota credit from a \$36.5M TCV, three-year agreement with a Fortune 10 technology company.
- ❑ **Achieved 244% of a \$700K new-software quota (\$1.71M closed) in 2026 YTD**, with wins across watsonx.data intelligence, Optim Archive, and Change Data Capture for enterprise manufacturing, automotive, and airline customers.
- ❑ **Deployment 2026 YTD: 196% of quota.** Delivered \$4.5M+ against a \$2.3M annuity deployment target and achieved 100% of a \$100K ELA deployment target, advancing customer adoption and implementation.
- ❑ Own pre-sales and post-sales engagements across 25+ Americas Fortune 500 accounts, aligning data integration, governance, observability, and security capabilities with enterprise modernization, deployment, and expansion priorities.
- ❑ Lead technical discovery, tailored demos, PoCs, and reference architectures, translating complex enterprise requirements into solution designs and technical validation plans.
- ❑ Author 30+ RFPs, RFIs, and security questionnaires annually, addressing architecture, compliance, and platform-evaluation requirements in complex enterprise sales cycles.
- ❑ Partner with account executives and technical stakeholders on deal strategy, business-value articulation, and opportunity progression; achieved 110% quota attainment in year one.

Sales Program Director for Ecosystem New Client Acquisition*January 2024 – December 2024**IBM – New York City, NY*

- ❑ Led reseller and distributor strategy for IBM's Americas New Client Acquisition mission; program outcomes included 50% year-over-year growth in new-client attainment, 1,400+ net-new SMB logos, and \$45M+ in annual recurring revenue.
- ❑ Enabled VARs, ISVs, and GSIs across IBM's data, automation, and security portfolio; optimized lead distribution and co-selling, improving pipeline conversion by 5% and incentive utilization by 77%, while supporting \$12M+ in reseller-influenced pipeline.
- ❑ Presented technical strategy, competitive positioning, and field insights to senior leadership, informing go-to-market priorities, packaging, and incentive design.

Chief of Staff to Vice-President, Ecosystem Sell*September 2022 – January 2024**IBM – New York City, NY*

- ❑ Owned the operating rhythm for Americas partner sales and led QBRs and executive reviews, translating sales, pipeline, and partner-performance data into recommendations on coverage, programs, and go-to-market execution.

Brand Sales Specialist Intern*May 2022 – Sep 2022**IBM – New York City, NY*

- ❑ Analyzed sales, pipeline, and partner performance and built executive presentations to support Americas ecosystem strategy and cross-functional decision-making.

Solutions Specialist / Financial Data Analyst*January 2019 - May 2022**Gravity Shipping LLC – New York City, NY*

- ❑ Managed operations and analytics for a 50+ truck transportation fleet, overseeing daily execution, lead generation, and weekly invoice processing exceeding \$500,000 while ensuring compliance and financial accuracy.
- ❑ Analyzed fleet metrics and supported route optimization efforts that reduced delivery times by 10%, saved \$50,000 annually in fuel costs, improved profitability by 10%, and contributed to a 12% increase in company revenue.
